Charging

Birdfy Cam 2
(DC5V / 1A)

Birdfy Cam 2 Pro
(DC5V / 1.5A)

Fully charge the camera before use

The camera does not come fully charged due to safety regulations. Before using it for the first time, please charge it for 10 hours with the charging cable inside the box.

Cargue completamente la cámara antes de usarla

La cámara no viene completamente cargada debido a regulaciones de seguridad. Antes de usarla por primera vez, por favor cárguela durante 10 horas con el cable de carga que se encuentra en la caja.

Chargez complètement la caméra avant utilisation

La caméra n'est pas complètement chargée en raison des réglementations de sécurité. Avant de l'utiliser pour la première fois, veuillez la charger pendant 10 heures avec le câble de chargement fourni dans la boîte.

Birdfy Cam 2 & Birdfy Cam 2 Pro

Status Light Luz de estado Le voyant d'état	Description Descripción Description
Solid red Rojo fijo Rouge fixe	Charging Cargando En charge
Off Apagado Éteint	Fully charged Completamente cargado Complètement chargé
Solid blue Azul fija Bleu fixe	Working Funcionando En fonctionnement
Flashing blue Azul intermitente Bleu clignotant	Wi-Fi Config Mode Modo de configuración de Wi-Fi Mode de configuration Wi-Fi

When charging, both the ambient temperature and camera temperature should be above 32°F (0°C).

If the camera has been exposed to low temperatures for an extended period, it should be brought back to room temperature before charging.

Al cargar, tanto la temperatura ambiente como la temperatura de la cámara deben estar por encima de los 32°F (0°C). Si la cámara ha estado expuesta a bajas temperaturas durante un período prolongado, debe ser llevada de vuelta a temperatura ambiente antes de cargarla.

Lors de la charge, tant la température ambiante que la température de la caméra doivent être supérieures à 32°F (0°C). Si la caméra a été exposée à de basses températures pendant une période prolongée, elle doit être ramenée à température ambiante avant d'être chargée.

Bird Identification

- If you have the Birdfy Feeder 2 with Lifetime Free AI, the AI bird identification feature is included and activated automatically, no further action needed.
- If you have the Birdfy Feeder 2 with AI by Subscription, you need to subscribe on my.birdfy.com to access this feature.
- Si tienes el Birdfy Feeder 2 con IA gratuita de por vida, la función de identificación de aves mediante IA está incluida y se activa automáticamente, no se requiere ninguna acción adicional.
- Si tienes el Birdfy Feeder 2 con IA suscribible, debes suscribirte en my.birdfy.com para acceder a esta función.
- Si vous avez le Birdfy Feeder 2 avec l'IA gratuite à vie, la fonction d'identification des oiseaux par IA est incluse et activée automatiquement, aucune action supplémentaire n'est nécessaire.
- Si vous avez le Birdfy Feeder 2 avec l'IA par abonnement, vous devez vous abonner sur my.birdfy.com pour accéder à cette fonctionnalité.

Assembly

1. Push the front part of the perch into the feeder.
 1. Empuja la parte delantera del posadero dentro del comedero.
 1. Insérez la partie avant de la perche dans le distributeur.
-
2. Insert both ends into the holes.
 2. Inserta ambos extremos en los agujeros.
 2. Insérez les deux extrémités dans les trous.

3. Install the front camera with the provided screw.

3. Instala la cámara frontal con el tornillo proporcionado.

3. Installez la caméra frontale avec la vis fournie.

4. Install the camera bracket and the side camera with the provided screws.

4. Instala el soporte de la cámara y la cámara lateral con los tornillos proporcionados.

4. Installez le support de caméra et la caméra latérale avec les vis fournies.

Outdoor Installation

A

Wall-mounted
Montado en la pared
Montage mural

B

Tree-mounted
Montado en árbol
Monté sur un arbre

C

Pole-mounted
Montado en poste
Monté sur poteau

A. Wall-mounted

1. Use the drill template and an electric drill (15/64", 6mm) to drill two holes.

1. Utiliza la plantilla de perforación y un taladro eléctrico (15/64", 6mm) para perforar dos agujeros.

1. Utilisez le gabarit de perçage et une perceuse électrique (15/64", 6 mm) pour percer deux trous.

2. Drive the provided plastic anchors into the holes. Skip this step if you are mounting on wood. Next, fasten the hanging bracket on the wall using the screws.

2. Inserta los anclajes de plástico provistos en los agujeros. Omite este paso si vas a montar en madera. A continuación, fija el soporte de suspensión en la pared utilizando los tornillos.

2. Insérez les chevilles en plastique fournies dans les trous.
Passez cette étape si vous montez sur du bois. Ensuite, fixez le support de suspension sur le mur à l'aide des vis.

3. Hang the feeder on the wall.

3. Cuelga el comedero en la pared.

3. Accrochez le mangeoire sur le mur.

B. Pole-mounted

1

2

1. Attach the hanging bracket to the pole with the hose clips.

1. Asegura el soporte colgante al poste con las abrazaderas de manguera.

1. Fixez le support de suspension au poteau avec les colliers de serrage.

2. Hang the feeder on the pole.

2. Cuelga el comedero en el poste.

2. Accrochez le mangeoire sur le poteau.

C. Tree-mounted

1. Strap the hanging bracket to the tree, then hang the feeder on the tree.

1. Ajusta el soporte colgante al árbol con una correa y luego cuelga el comedero en el árbol.

1. Attachez le support de suspension à l'arbre avec une ssangle, puis accrochez le mangeoire à l'arbre.

Solar Panel

Use the Y branch connector to connect the solar panel to both cameras.

Utilice el conector de rama Y para conectar el panel solar a ambas cámaras.

Utilisez le connecteur en Y pour connecter le panneau solaire aux deux caméras.

Adding Birdseed

1. Open up the roof.

1. Abre el techo.

1. Ouvrez le toit.

2. Fill the feeder with birdseed.

2. Llena el comedero con semillas para pájaros.

2. Remplissez le distributeur de graines pour oiseaux.

Cleaning

①

②

1. Remove the cameras.

1. Retira las cámaras.

1. Retirez les caméras.

2. Take off the seed guard.

2. Quita la protección de semillas.

2. Enlevez la protection des graines.

3. Open the roof up to 80° and detach it.

3. Abre el techo hasta 80° y desánclelo.

3. Ouvrez le toit jusqu'à 80° et détachez-le.

4. Pull the inner roof out.

4. Extrae el techo interior.

4. Retirez le toit intérieur.

⑤

⑥

5. Remove the front panel from the middle.

5. Retira el panel frontal del medio.

5. Retirez le panneau avant du milieu.

6. Use a brush and water to clean the feeder.

6. Usa un cepillo y agua para limpiar el comedero.

6. Utilisez une brosse et de l'eau pour nettoyer le distributeur.

Reassembly

1. Align the bottom of the front panel with the grooves, then press the clip at the top to secure it in place.

1. Alinea la parte inferior del panel frontal con las ranuras, luego presiona el clip en la parte superior para asegurarlo en su lugar.

1. Alignez le bas du panneau frontal avec les rainures, puis appuyez sur le clip en haut pour le fixer en place.

2. Fit the inner roof into the grooves.

2. Ajusta el techo interno en las ranuras.

2. Insérez le toit intérieur dans les rainures.

3. Clip the roof into position.

3. Engancha el techo en su posición.

3. Attachez le toit en le clipsant en position.

4. Clip the seed guard onto the feeder.

4. Coloca el protector de semillas en el comedero, asegurándolo con el clip.

4. Fixez le protège-graines sur le distributeur.

5

5. Reinstall the cameras.

5. Vuelve a instalar las cámaras.

5. Réinstallez les caméras.

Reboot hole
Orificio de reinicio
Trou de redémarrage

Birdfy Cam 2 Pro

If your Birdfy camera goes offline or fails to stream, try these troubleshooting steps:

1. Ensure the camera is fully charged.
2. Verify your home Wi-Fi connectivity. Try to reconnect the camera to your Wi-Fi network.

If the issue persists:

1. Disconnect the camera from the solar panel or charger.
2. Use the provided ejector pin or a paperclip to press the

reboot hole to power down the camera entirely.

3. Press and hold the power button for 3 seconds to restart the camera.

Si tu cámara Birdfy se desconecta o no puede transmitir, prueba estos pasos de resolución de problemas:

1. Asegúrate de que la cámara esté completamente cargada.
2. Verifica la conectividad de tu red Wi-Fi doméstica. Intenta reconectar la cámara a tu red Wi-Fi.

Si el problema persiste:

1. Desconecta la cámara del panel solar o del cargador.
2. Usa el pasador de expulsión proporcionado o un clip de papel para presionar el orificio de reinicio y apagar completamente la cámara.
3. Mantén presionado el botón de encendido durante 3 segundos para reiniciar la cámara.

Si votre caméra Birdfy se déconnecte ou ne parvient pas à diffuser, suivez ces étapes de dépannage :

1. Assurez-vous que la caméra est complètement chargée.
2. Vérifiez la connectivité de votre réseau Wi-Fi domestique. Essayez de reconnecter la caméra à votre réseau Wi-Fi.

Si le problème persiste :

1. Débranchez la caméra du panneau solaire ou du chargeur.
2. Utilisez le poinçon d'éjection fourni ou un trombone pour appuyer sur le trou de réinitialisation et éteindre complètement la caméra.
3. Maintenez le bouton d'alimentation enfoncé pendant 3 secondes pour redémarrer la caméra.

Warning

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications made without explicit approval from the responsible party in compliance may result in the user being unauthorized to operate the device.

This device meets the FCC radiation exposure limits for uncontrolled environments. To ensure safe installation and operation, maintain a minimum distance of 20cm between the radiator and your body.

FCC ID: 2BC96NI-8601 (Birdfy Cam 2)

FCC ID: 2BC96NI-8611 (Birdfy Cam 2 Pro)

CE Statement

The information provided on the packaging is allowed to identify geographical areas within the member states where restrictions on use or requirements for authorized use exist, if applicable. The structure of the product allows it to be used in at least one member state without violating applicable requirements for the use of radio spectrum.

NETVUE INC.

Pasadena, CA, 91106

IC Statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

3. L'appareil ne doit pas produire de brouillage;
4. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.

Cet équipement respecte les limites d'exposition au rayonnement IC établies pour un environnement non contrôlé.

Cet émetteur ne doit pas être localisé ou fonctionner en conjonction avec une autre antenne ou un autre émetteur. Cet équipement doit être installé et utilisé à une distance minimale de 20cm entre le radiateur et votre corps.
